

Case Study: Kam's Roast Restaurant, Hong Kong

Project Overview: Kam's Roast, a renowned restaurant in Hong Kong celebrated for its culinary excellence, collaborated with our distributor in the region to enhance its dining space. Seeking a distinctive design element, the restaurant opted for our CST T 17 Rustic Autumn stone veneers to be used in a ceiling light feature.

Product Used:

Stone Veneer Type: CST T 17 Autumn Mist

Surface: Slate, Transparent

Thickness: 1.2.-1.6mm

Use Case: Ceiling Light Feature

Challenges: The objective was to elevate the dining experience at Kam's Roast by introducing a visually striking element that complemented the restaurant's warm and inviting atmosphere. The challenge was to find a material that not only added a touch of sophistication but also allowed for creative design flexibility in the ceiling light feature.

Solution: CST T 17 Autumn Mist stone veneers were selected for their captivating texture and the natural warmth of the autumnal tones. The stone veneers were meticulously incorporated into a custom-designed ceiling light, offering a unique and visually appealing focal point. The distributor worked closely with the restaurant's design team to ensure seamless integration.

Benefits:

- 1. Visual Allure:** The Autumn Mist stone veneers, when used in the ceiling light feature, added a captivating visual allure, creating an ambiance of understated elegance within the restaurant.
- 2. Creative Flexibility:** The flexibility of CST T 17 Autumn Mist allowed for intricate design detailing, ensuring that the ceiling light became a custom-crafted masterpiece tailored to Kam's Roast's specific vision.
- 3. Warmth and Sophistication:** The natural warmth of the stone veneers contributed to the overall sophistication of the restaurant's interior, enhancing the dining environment.

Results: The integration of CST T 17 Autumn Mist stone veneers into the ceiling light feature transformed Kam's Roast dining space, providing patrons with an immersive and visually captivating experience. The custom-designed ceiling light became a focal point, seamlessly blending with the restaurant's inviting ambiance.

Restaurant Management Testimonial: "The CST T 17 Autumn Mist stone veneers have added a layer of sophistication and visual intrigue to our dining space. The ceiling light feature, thoughtfully crafted with the stone veneers, has become a conversation starter among our patrons. We appreciate the collaboration with our distributor and the timeless beauty of the selected stone veneers."

This case study showcases how the application of CST T 17 Autumn Mist stone veneers in a ceiling light feature can redefine the ambiance of a restaurant, adding a touch of sophistication and creating a memorable dining experience for patrons.
